

SUJIT KUMAR VERMA

Full-Stack Web Developer

Kolkata, West Bengal | 7890571753 | sujitkumarvarma10@gmail.com

LinkedIn | GitHub | Portfolio

PROFILE SUMMARY

Computer Science Engineering student with hands-on experience in full-stack web development and backend development using React.js, Next.js, Node.js, and Express.js. Strong foundation in C++, Data Structures and Algorithms, REST APIs, database management, and modern web application development. Experienced in building AI-powered applications using Generative AI APIs and currently expanding skills in AI/ML and backend engineering.

EXPERIENCE

Backend Developer Intern

Xspaceweb Private Limited

March 2026 – June 2026

Kolkata, West Bengal

- Developed backend functionality for real-world web applications using Node.js and Express.js.
- Built and integrated REST APIs to support frontend-backend communication and application features.
- Implemented server-side logic, CRUD operations, and database integration based on project requirements.
- Collaborated with developers to debug issues, implement features, and improve application functionality.

EDUCATION

B.Tech in Computer Science and Engineering

NSHM Knowledge Campus, Durgapur

2023 – 2027

West Bengal

- Affiliated to Maulana Abul Kalam Azad University of Technology (MAKAUT)
- Expected Graduation: June 2027

TECHNICAL SKILLS

Languages: C++, JavaScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js, REST APIs, MVC, CRUD

Database & Tools: PostgreSQL, MongoDB, Prisma, Git, GitHub, Inngest, ImageKit

AI & Services: Google Gemini API, Generative AI, Clerk, Stripe, Role-Based Access Control (RBAC)

PROJECTS

Storiocart – AI-Powered Multi-Vendor E-Commerce Platform | Next.js, React, PostgreSQL, Prisma, Gemini API

- Built a full-stack multi-vendor e-commerce platform using Next.js, React, Prisma ORM, and PostgreSQL with dedicated workflows for Customers, Sellers, and Admins.
- Implemented Role-Based Access Control (RBAC) and Clerk authentication to manage role-specific access, dashboards, and multi-account switching.
- Integrated Google Gemini API to analyze product images and generate product titles and descriptions, streamlining the seller product-listing workflow.
- Implemented Stripe and Cash on Delivery (COD) checkout with Plus Membership subscription billing, member discounts, and free-shipping benefits.
- Developed automated background workflows and webhook processing using Inngest, including scheduled coupon-expiry handling.

CERTIFICATIONS

- Getting Started with Artificial Intelligence – IBM SkillsBuild (2024)
- Machine Learning for Data Science Projects – IBM SkillsBuild (2025)
